### SHADEMASTER HONEYLOCUST

Plant Patent No. 1515

The Tree of Today for Lawns and Parks

It has

- A straight strong trunk
- Ascending branches
- Heavy dark green foliage
- Drought resistance
- Late fall foliage
- A naturally symmetrical top — different from most honeylocusts.

Shademaster's low maintenance cost and excellent performance have all ready made it a popular tree for landscape and street planting.

B. F. Goodrich Chemical Co.

## STOPS WINTER BURN

**Retards evaporation from leaves while transplants are establishing new roots. Minimizes wilting and resulting setback to plant growth.**

- Permits transplanting any time of year
- Can be used as a spray or a dip
- Will not harm plant tissues
- Long-lasting, forms transparent film
- Reduces water loss through foliage
- Has no toxic effect
- Simple and convenient to use
- Actually enhances appearance
- Almost invisible
- Retards winter burn

PLANTECT can be applied any time when atmospheric conditions will allow it to dry fairly rapidly. When PLANTECT is dry, it is transparent. Temperatures of 70° or higher are ideal but satisfactory results can be obtained at much lower temperatures. When PLANTECT is used indoors, drying can be hastened by artificial heat and the use of fans.

**HOW TO APPLY —** PLANTECT can be sprayed or dipped, whichever is most convenient. Use any type of pressure sprayer. Care should be taken to get complete coverage.

For transplanting evergreens — Use one part PLANTECT to 4 parts water.

For transplanting deciduous shrubs and trees — One part PLANTECT to 6 parts water.

For rooted cuttings from greenhouse and beds — One part PLANTECT to 8 parts water.

For deciduous stock for storage — One part PLANTECT to 1 or 2 quarts water.

**CAUTION:** Clean sprayers carefully with water after using PLANTECT. Spray equipment, especially hose, pipes and nozzles, are likely to clog if not flushed out with water at least once daily. PLANTECT should never be left in sprayer over night.

If you are not yet enjoying the Smooth pickup, the Easy hand-hold, the Safe carrying, the Instant release—of the HANDY-MAN Gripzit you-are-missing-a-good-tool. Made of steel with bronze rod handle-linkage. Great strength. Light and small enough

to carry in your pocket. (Finish-plated)  
 WHY continue lifting heavy plants-in-cans with extended finger tips. Straining every muscle in hand and arm? The GRIPZIT lets you carry weight where NATURE meant it to be carried — with all four fingers turned up — In their strongest position. With thumb for brace.

The GRIPZIT speeds truck or yard dolly loading. SAVES hours in relocating Blocks of can or container grown plants. SAVES plant injuries due to DROPPING such plants. SAVES hand injuries. SAVES the cans, too. (You've seen workers kick down the top of large cans to make a sort of hand-hold) SAVES YOU MONEY. MAKES YOUR EMPLOYEES HAPPY.

Retail — \$3.50 each — 2 for \$6.25  
 Dealer \$3.20 each — 2 to 5 Units \$2.90 each

## RED HEAD CAN SHEAR

**A Must If You Sell Plants in Cans**

When it is sold each can is split by two cuts down the sides opposite each other. These cuts are made in a matter of seconds with the Red Head Can Shear. The customer opens the can by bending it apart and plants the root ball without trouble.

REDHEAD CUTTING is . . .

SWIFT

CLEAN

SAFE

EASY as 1, 2 and 3

and each cut is COMPLETE. (If can sets on concrete you nick the bottom rim, if on sawdust or unpacked earth, you may cut through entire bottom bead of can.)

It's LONG (29") and HEAVY ENOUGH (4¼ lbs.)  
to speed Big RE-CANNING JOBS!

Price . . . . . \$7.50

## DUAL BARROW — MODEL 55

CARRYING SPACE CAPACITY: 40 one gal. cans — 12 five gal. cans, or commensurate in B&B stock or flats. (Rails or sides can be added for containment of B&B stock.)

SPECIAL FEATURE: Order stand, as seen between the handles, conveniently placed, so your men can take this barrow out and very often fill an entire order — or several small orders — on one pick-up trip!

ACT TODAY — This fine carrier will pay for itself, in saved labor, in a very short period. But it can not 'buy itself' until you order — and put it to work!! In the meantime, you (or your men) are wasting precious time, and strength, balancing top heavy Nursery loads, and carrying half the weight of a 'one wheeler's load' — in your hands!
